RSV Building Solutions Completes Burgerville Headquarters Remodel

VANCOUVER, Wash. – Recently, RSV Building Solutions completed a remodeling project for Burgerville’s downtown Vancouver headquarters. The project was completed in a short time span of just seven weeks and was delivered to Burgerville one week ahead of schedule.

“As a company, our mission is to Serve with Love. That’s why RSV is a perfect fit for us,” said Barry Lucas, director of facility management with Burgerville. “RSV listened, cared, and helped us stretch our resources. We couldn’t be happier.”

The project involved transforming a vacant space into offices and meeting areas for corporate training and events, along with space to house staff for Burgerville’s mobile kitchen, the Nomad. Additionally, RSV worked to include a new ADA compliant kitchen area and restrooms.

“Our relationship with Burgerville is something we are very proud of,” said Ron Frederiksen, president of RSV Building Solutions. “Using our local business resources to help clients succeed is lots of fun. Doing business with friends is even better.”

RSV has worked for such restaurant clients as Beaches, Costa Vida Fresh Mexican Grill, Le Hana Japanese Grill, Boston’s Gourmet Pizza, and Pizza Schmizza, to name a few.

The project timeline spanned from initial design starting June 14 through final occupancy on August 11; RSV completed the project one week earlier than scheduled.

RSV collaborated with Jeff Lightheart of Architects Associative in the design phase.

About RSV Building Solutions

For more than 35 years, Vancouver-based RSV Building Solutions has become well known for managing complex new construction, remodeling, and tenant improvement projects. Unique among general contracting firms, RSV routinely works with teams of highly skilled design-build professionals who collaborate to solve clients' problems and to meet clients' budgets and construction goals. RSV is among the area's top 20 commercial construction companies, based on gross billings.
