RSV Begins Construction on Precision Eye Care Clinic

VANCOUVER, Wash. – RSV Building Solutions, a Vancouver-based construction company that specializes in the medical/dental field, recently began construction on Precision Eye Care’s new clinical space, which is in the recently completed Draco Building located by the Westfield Vancouver Mall.

“We are always excited to help local businesses grow in a way that makes the most financial sense,” said Ron Frederiksen, president of RSV. “Because the space available in the Draco Building is available for purchase instead of lease, owners can invest in themselves and build wealth for the future.”

RSV will be creating a 4,000-square-foot clinical office for Precision Eye Care. The new space includes five exam rooms, a contact lens dispensary, a glasses dispensary, a conference room, an administrative office and a lab. Precision Eye Care is the first tenant to occupy the 7,000-square-foot Draco building, which leaves roughly 3,000 square feet of vacant space available for future tenants.

“RSV led the land acquisition, design, permitting and financing process for this building,” said Judy Chan, OD, owner of Precision Eye Care. “They made owning my own space predictable and trouble free. Their efforts will have a hugely positive impact on my financial success.”

Construction on Precision Eye Care’s new space began mid-January and is scheduled for completion in late March.

About RSV Building Solutions

For more than 35 years, Vancouver-based RSV Building Solutions has become well known for managing complex new construction, remodeling, facility maintenance and tenant improvement projects. Unique among general contracting firms, RSV routinely works with teams of highly skilled design-build professionals who collaborate to solve clients’ problems and to meet clients’ budgets and construction goals. RSV is among the area’s top 20 commercial construction companies, based on gross billings.
